Art Unit: 1618

Claims 1, 3, 8-10, 12-27, 29-32 and 35-45 are presented for examination.

The amendments and remarks filed on July 5, 2007 have been received and entered.

Claims 1, 3, 8-10, 12-27, 29-32 and 35-45 are rejected under 35 U.S.C. 112 first paragraph, for the reasons set forth on page 2 of the office action of February 2, 2007.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 3, 8-10, 12-27, 29-31 and 41-44 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-55 of U.S. Patent No. 6,375,957. Although the conflicting claims are not identical, they are not patentably distinct from each other because they overlap. The claims of the U.S. Patent are drawn an oral dosage form of an opioid agonist, acetaminophen and an opioid antagonist. The claims of the instant application are drawn to an oral dosage form of from 2 mg-800mg of an opioid agonist, acetaminophen and an opioid

Application/Control Number: 09/992,936

Art Unit: 1618

antagonist. The claims of the instant application are within the scope of the claims of the U.S. Patent.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that opioid agonists and antagonists are phrases commonly used by those skilled in that art, and refers to compounds, which act to stimulate the opioid receptors (agonists) or to block opioid receptors. The arguments are not well taken. The instant claims generally recite an opioid agonist or an opioid antagonist. When functional claims are drawn this broadly they are inclusive of any opioid agonists and antagonists, which can be small molecules, peptides, peptide mimetics or RNA-DNA-based structures. The instant specification quite simply, does not disclose any opioid agonists or antagonists other than small molecules. As such, it cannot provide any direction for using any peptides, peptide mimetics or RNA-DNA-based structures; no identifying characteristics of any kind, e.g. sequences are provided. Accordingly, the instant specification fails to provide an adequate written description of an opioid agonist or an opioid antagonist generally.

The newly submitted amendments necessitate the new ground of rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1618

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
